### Summary Map Notes:

[1] A set of four 31" x 37" [79 cm x 94 cm] maps: winter, spring, summer, and fall.

[2] A set of four 31.25" x 37.5" [79 cm x 95 cm] maps: winter, spring, summer, and fall. **Note:** The data for this atlas were collected to produce ESI Summary Maps of the area. As a result, the electronic products may be at a smaller scale and may not include the level of detail found on typical ESI atlas maps. For example, fewer species may be mapped, or only the most sensitive shoreline types shown. For more detail, please reference the appropriate metadata records available at <http://response.restoration.noaa.gov/esi/metadata.html>.

[3] Represented in four 38.5" x 37" [98 cm x 94 cm] maps of the region. **Note:** The data for this atlas were collected to produce ESI Summary Maps of the area. As a result, the electronic products may be at a smaller scale and may not include the level of detail found on typical ESI atlas maps. For example, fewer species may be mapped, or only the most sensitive shoreline types shown. For more detail, please reference the appropriate metadata records available at <http://response.restoration.noaa.gov/esi/metadata.html>.

[4] A set of four 46" x 33" [117 cm x 84 cm] maps: winter, spring, summer, and fall.

[5] A set of four 26" x 37" [66 cm x 94 cm] maps: winter, spring, summer, and fall.

[6] A set of four 25" x 37.5" [63.5 cm x 95 cm] maps: winter, spring, summer, and fall.

**Other Notes:**

[7] New Jersey south of Barnegat Inlet.

[8] Due to the size and complexity of this atlas, the electronic formats are provided on DVD (digital video disk), a type of compact disk that holds far more information than a CD-ROM. For those who do not have access to a DVD drive, a CD containing the PDF versions of this atlas is available.
